DIY mini road signs

Make your very own road signs in just four easy steps.
Download and print this page, add some toy cars, and play all day!

What you'll need:
- A4 paper
- A printer
- Scissors
- Toothpicks
- Adhesive gum
- Small coins

Step 1: Print this page and cut out each of the road signs.

Step 2: Add adhesive gum to the back of the road sign, and the top of the toothpick. Press these together.

Step 3: Stick the other toothpick end to the top of the coin with adhesive gum. Press these together.

Step 4: Nice work. You've just made a road sign! Repeat for the others, then get playing.
